

TUMAINI FOUNDATION NEWS LETTER AS OF APRIL-DEC 2023

Tumaini Foundation is the non-government Organization registered in Tanzania aiming at creating better lives for the orphans and widows in Tanzania, for 15 years now we have been into service and spreading hope to 350 most vulnerable children and 200 widows in Morogoro and Dodoma, it has really been a blessing to become the part of their beautiful stories and journeying with them. Kindly celebrate with us for the milestone and the achievement we have made so far.

ORGANIC FARMING,

With a blessing of volunteers we managed to train 200 children from 3 schools on organic farming in Ihumwa, the aim is to make sure that our children grows well knowing the right way to keep the land and increase productivity. Along with the school training, we also trained the households especially those coming from the vulnerable grounds on how to use and make

composts but also how to use their small areas/land to plant vegetables for their own families' nutrition.

CREATIVITY, TALENTS AND CULTURE DEVELOPMENT

We really want to support our children in creativity, discovery, learning and we want to see that they are also attached to the good cultures and practices .The children were given the time to make what they can think of, and it was really amazing to see what they think and how they can put their thoughts in creations

BRAYS CROWN SCHOOLS REGISTRATION, LAUNCHING AND CONSTRUCTION ON PROGRESS

We are really grateful as the year 2023 made us really good, we managed to register on early learning inclusive school from the government but also on the 23rd Des 2023 the school was officially launched, in the year 2023 we also managed to build more two classes and insert the 20,000 Lts Tanks in which we will harvest the rainfall water

ALL CHILDREN MUST GO TO SCHOOL

We had our eyes very close to the children living with special needs and made sure that they are also covered and sent to school, along with that we also helped with assistive tools and improving the facilities at school for their easy learning

SHELTER AND ACCOMODATION

We managed to bless the children with beddings especially those living out of the centre with their care givers ,may of them were sleeping on the floor, we managed to provide 100 mattresses and 200 blankest and 150 cleaning tools like towels. We are so happy that they can now sleep on the mattresses with bed sheets.

WIDOWS PROJECTS,

Widows were not left out as they also received the bedding and also received a lot of training and business skills which will help them improve their livelihood. They learned how to make Batikis for sell, soap, and tailoring training, now they have started working in group, and started serving for their own benefits.

COMMUNITY ENGAGEMENTS AND MOBILIZATION THROUGH CYCLING

We managed to do a cycling on inclusive education, the aim was to invite the community to contribute on the construction of the inclusive school in Gairo, and we were so happy to see two friends joining from India to just make a difference with us on that special day, the ministry of education was there to support what we are doing as far as the inclusive education is concerned. We also started a partnership with MAIDO as an organization working among disabled children in Kiyegea, so they identify and we provide service, we are looking forward to more impacts and more partnerships.

HEALTH AND NUTRITION

We kept feeding the children to fight hunger for them to be healthy and sound enough to concentrate on their learning, but also children has been treated although the government has omitted the child health insurance which was more affordable to us, now we have to cash every

medical checkup.

FASHION AND DESIGNING NOW

At the Tumaini Foundation we see and support talents, amongst us there are people passionate on fashion and trends, so we decided to start a business and start earning from it, now we design different cloths through mama Donati who is now a professional fundi (tailor) after she graduated from VETA COLLAGE.

ENDING THE MENSTRAL POVERTY

We acknowledge the support needed to the girl child coming from poor families, who can't afford to buy the sanitary pad during their cycle, we have so many real stories of how girls

dropped out of school because they cannot feel safe when they go to school on their days but also after days the teachers will beat them up so badly because its kind of a taboo to say that you are on your circle. So we are training women on how to make local reusable sanitary pads but also girls were taught to do it, although we distributed more than 400 pads, but we kept on training them how to do it by themselves.

CARE AND LOVE FOR LESS THAN TWO YEARS

In our community there are children under two year suffering malnutrition san their moms cant breads feed due to diseases or milk isn't enough because they don't eat food, so we decided to create a nutrition project by making sure that every family is planting vegetables for their own good but also men are encouraged to care for their families while mothers are caring for their children. Most of these families are father less. We also tried to make sure that the children are

covered and well dressed up through the distribution of 100 baby's kit.

THE IMPACT OF CLIMATE CHANGE ON CHILDREN.

Climate action is inevitable as our children are also affected with it, so many children will walk away to search for water but also prolonged draught affects their health but also the shortage of food brings stagnation, so we decided to take action by planting 800 trees in Dodoma and Morogoro. We really want to see the environment where the child is not scared of the nature

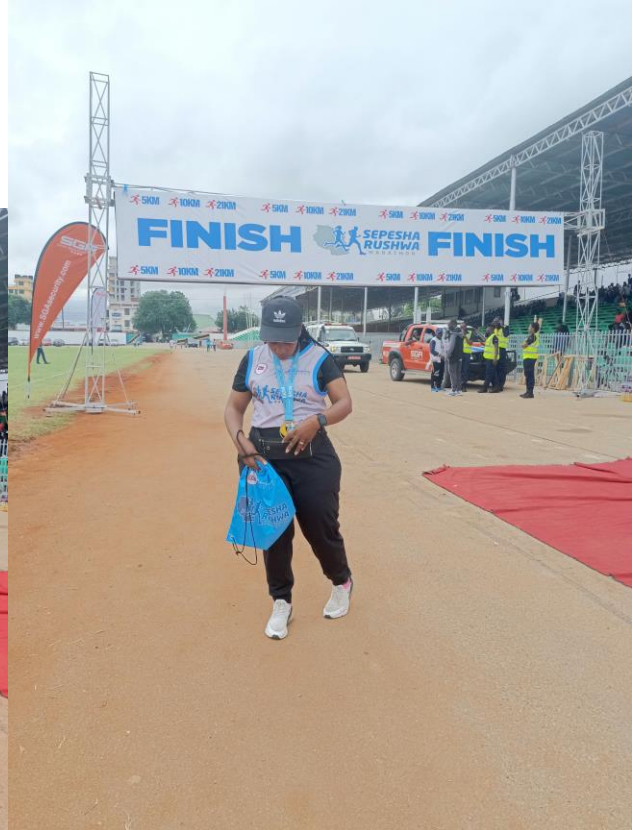

and the nature is not scared of the child.

COMMUNITY ENGAGEMENTS THROUGH MARATHON

We partner with others in making sure that we create a beautiful Tanzania. We joined the anticorruption movement in Tanzania named Sepesha Rushwa marathon in Dodoma .

Corruption is an enemy to our development and human rights as well, children are also affected with the effects of corruption in Tanzania as they can not get the quality education but also it promotes inequality. Mrs Tumaini Kivuyo our Executive Director raced 5 kms

MAZINGIRA SALAMA INITIATIVE,

Mazingira is the Swahili word which means environment, Salama means safe , we believe that God placed Adam in a very beautiful environment for him to care and not to destroy, with partnership with AGRIYOUGH FORUM we are now able to help the children to practically learn on how to care for their environment through planting trees and recycling, so many beautiful ideas came out of that and we can't wait to see the next steps and milestones.

LEVERAGING TECHNOLOGY FOR CHILD DEVELOPMENT

This is the digital world, we are determined to make sure that the most vulnerable children are not left behind, we want to make sure that we empower Tanzania's future tech stars for the benefit of this country. In partnership with TIKETI RAFIKI we opened the kids computer centre where by children can learn to use computers at the younger age. Until now children can type and use the computer, we are looking forward opening the other centre in Gairo and Kiyegea. Special thanks to the teachers and our partners Tiketi Rafiki

AT THE TABLE WITH THEM

Every Christmas festive we celebrate with all our beneficiaries in Ihumwa Dodoma, but this year we did it in Gairo on the 23rd Dec 2023 we fed 250 most vulnerable children but also we fed 100 widows again on the 26th Dec 2023 we fed 250 children in Dodoma and 100 widows which made the total number of 700 people, we are really so happy for the smiles we were able to put on their faces but also to rise some school equipments for all the children going to school on January 2024, We really appreciate the support came from the community and friends from everywhere to just make an event a success, we really appreciate every single sacrifice.

AWARD

We celebrate the award given to us as an appreciation of the job well done of serving the children through Tumaini Foundation. The appreciation goes to the whole team and friends who made this year a success through their donations and all kinds of support.

SPECIAL THANKS

We give all glory to the almighty God for working with us, through us and for us.

We would love to thank our friends for their support those living abroad and those in the country, your support means a lot.

We would love to thank TIKETI RAFIKI, MAEDO AND AGRIYOUTH FORUM for all the efforts and support to just see our children becoming the better version of themselves.

We would love to thank all the committee members who made AT THE TABLE 2023 a success, your efforts and commitments means a lot.

WISH LIST FOR THE YEAR 2024

Our expenses in a weekly bases

1	School needs	250,000/=

We want to invest in animal keeping as a business, we are going to raise pig, cows and chicken the money from the business will buy foods and medications for the children, this costs 2500\$ for poultry farm, 2500\$ for 20 pigs, foods and house, 6000 for 3 big cows, house and foods for the kick start.

2. We want to buy the land at least 5 acres in Dodoma and start the construction for the big and spacious safe home. It cost 100000\$

3. We are planning to finish our school for it to become a primary school which cost 30000\$

AN INVITATION

We would really love to invite you to join our wonderful team, you are welcome for monthly donations and all time you are able to donate, but also we need many people as we can, who are committed and having the heart to serve and love. Tumaini Foundation is the local NGO running a safe home for the children as well. Our source of fund is from individuals who are kids lovers but also the founder Mrs Tumaini working with our tour company which is also growing www.tumainiadventures.com to provide foods to the children through the generated profit.

We really appreciate if you can share the news to your friends, who knows someone will love to support.
